TRAIN HOPPER

LOC BREWERY

TRAIN HOPPER

Next to our double IPA a Train Hopper is a person riding on the outside of a train or another rail transport.

This type of travelling can be dangerous and even life threatening, because there is a risk of death or serious injury from falling off a moving train, electrocution, collisions, or unsuccessful attempts to jump on or off a moving train.

We do not recommend this type of travel, however we do recommend our Train Hopper as a safer thrill rush. The Train Hopper is a west coast inspired double IPA, so don't even look for balance in this brew. We crammed it up with Amarillo, Mosaic & Citra hops.
